AI Vehicle Review

2012 Ford Galaxy Titanium 2.0 TDCi

Introduction

This report provides a comprehensive appraisal of the 2012 Ford Galaxy Titanium 2.0 TDCi (140 PS), focusing on its technical specifications, performance, reliability and market value in the UK. The second-generation Galaxy (2006-2015, facelifted in 2010) is a full-size seven-seat MPV renowned for its cavernous, flexible interior, which makes it a highly practical choice for larger families.

Technical Specifications

- **Engine:** 2.0L (1997 cc) 4-cylinder Duratorq TDCi turbo-diesel
- **Power:** 140 PS (138 BHP), 320 Nm of torque
- **Transmission:** 6-speed manual
- **Drivetrain:** Front-wheel drive
- **Body Type:** 5-door MPV, seven seats in three rows

Performance & Efficiency

- **Top Speed:** Approximately 195 km/h
- **0-100 km/h:** Approximately 10.2 seconds
- **Fuel Consumption (Combined, NEDC):** Approximately 5.3 L/100km (equivalent to 53.3 mpg)

SAMPLE

- **CO2 Emissions:** 139 g/km
- **UK Road Tax Band:** With CO2 emissions of 139 g/km the car sits in VED band E, currently £190 a year.

Reliability & Common Faults

The 2.0 TDCi Galaxy is generally considered a robust family car, but there are certain issues that buyers should be aware of:

- **Diesel Particulate Filter:** Cars used mainly on short urban trips can suffer a blocked DPF; check for warning lights and ask about motorway use.
- **Dual-Mass Flywheel and Clutch:** A judder on take-off or a rattle at idle points to a worn dual-mass flywheel, an expensive repair on this engine.
- **Suspension Wear:** Being a heavy seven-seater that is often fully loaded, the Galaxy wears front wishbone bushes, drop links and rear springs faster than a hatchback.
- **Electrical Gremlins:** Owners report occasional faults with the electric parking brake, the sliding-roof blinds and the Convers+ instrument display on Titanium models.
- **Manufacturer Recalls:** Past campaigns covered the power steering and the seat-folding mechanism; verify that all recall work has been carried out by a Ford dealer.

Maintenance Advice: Service intervals are 20,000 km or one year; use the correct low-ash oil for the DPF, and budget for the timing belt and water pump at 200,000 km or ten years.

Market Value

Based on current listings for similar models in the UK, the 2012 Ford Galaxy Titanium 2.0 TDCi typically ranges from **£5,250 to £6,750**. The valuation depends heavily on mileage, service history, the condition of the DPF and clutch, and whether the seven seats and interior show the wear of family use.

Trim-Specific Features

Titanium sits above Zetec in the 2010-2015 range and frequently includes:

- **Comfort:** Dual-zone automatic climate control, cruise control, automatic headlights and rain-sensing wipers.
- **Interior:** Part-leather sports seats, the Convers+ colour instrument display, Sony audio with Bluetooth and the fold-flat seven-seat layout.
- **Exterior:** 17-inch alloy wheels, front fog lamps and chrome exterior accents.

MyVehicle AI Analyst Verdict

The 2012 Ford Galaxy Titanium 2.0 TDCi is an exceptionally practical MPV that carries seven adults and their luggage over long distances in comfort. The 140 PS diesel suits the car far better than the smaller petrol engines, returning sensible running costs even when fully loaded, and the Titanium specification lifts the cabin well above the fleet-spec Zetec. Check the DPF and clutch history carefully; a well-maintained example is a strong used-market contender for a large family.

The Irish and UK Vehicle Check services do not relate to, contain information on or purport to comment on:
1 the physical condition of any vehicle;
2 the roadworthiness or safety of any vehicle;
3 whether or not a vehicle has been “written off”, unless such vehicle was reported to the Department of Transport as a write off or written off by an insurance company and such information has been provided to the Service Provider by such insurance company;
4 whether a vehicle or any of its components have been altered or replaced, unless notification of same has been provided to an insurance company or other body which provides information to us; or
5 whether or not a vehicle has been ‘clocked’, a description of such will not be in a report; or 6 whether any vehicle is a “clone” bearing a false vehicle registration mark and vehicle identification number.
Accordingly, in addition to all other aspects, you must satisfy yourself in respect of the above mentioned aspects of any vehicle(s) you intend to or in fact purchase.
Any part of the Services should be used by you as a tool to assist you in buying (or not buying) a particular vehicle. The final decision will always rest with you and the Service Provider does not make any warranties or representations in respect of any information, report or statement generated by the Site or the Services.

Thank you for being a valued customer. We are grateful for your continued support for the Only Fully Irish Owned Vehicle Data Provider.
